## PET COKE REMOVER

### DESCRIPTION

PET COKE REMOVER is a concentrated product, specially formulated to successfully remove pet coke from cargo and storage tanks. It contains special detergents and builders. It helps with cargo hold cleaning, by removing stains and discolouring after cargo discharge. PET COKE REMOVER is water based and non-ammable. Its composition meets the criteria for not being harmful to the marine environment according to MARPOL Annex V.

### Application

PET COKE REMOVER is mainly used in cargo and storage tanks but may also be used for the removal of mineral deposits in tanks and other closed systems. It can also be applied as a general purpose cleaner to eliminate bad odors in tanks and other closed systems.

### USE AND DOSING

Instructions are based on experience and are meant only as a guide since circumstances for each tank cleaning operation vary. They are not intended to interfere with the judgment of the vessel's responsible personnel. Always try to preclean tanks with high pressure water, so as to remove large deposits and ensure an effective cleaning operation. Be sure that the surface has dried, before applying the chemicals, in order to avoid unnecessary dilution of chemicals used.

- Heavy duty water based cleaner.
- Effectively removes pet coke and mineral deposits from cargo holds and tanks.
- Quick and intrinsic action.
- Can also be used as a general purpose cleaner to eliminate bad odors in tanks and other closed systems.
- Safe to use on ferrous metals & alloys and/or rubber/plastic.
- Non-flammable, non-toxic.
- Composition conforming to MARPOL Annex V.

**PRODUCT**

## PROPERTIES

It is highly recommended to always test all cleaner solutions on a small area of tank coating, before full scale application.

## PROPERTIES

| Ph             | >13                        |
| Density        | 1,05 g/cm <sup>3</sup>     |
| Flashpoint     | None Physical state Liquid |

## TECHNICAL INFORMATION

BRAIN CHEM PET COKE REMOVER is compatible with most tank-coatings. To be sure measure the pH of the coating or revert to BRAIN CHEM INT PTE LTD for further technical information. We recommend users to refer to MARPOL Annex II for use of cleaning agents or additives (see latest edition MEPC.2 circular issued annually in December). Additional reference can refer to the IMO publication: IMO/UNEP Guidelines on PET COKE REMOVER Application and Environmental Consideration. This book gives more information on the application of dispersants. We would also

wish to point out that the use of dispersants in many countries is governed by the local authorities or Coast Guards and permission to use the product must be thought.
